Notable features:

Numbers 1034-1038 are 2-story flat houses with cellar entrances. There is a sallyport between 1038 and 1040. Number 1040 is a 2-story gable with segmental window arches. Numbers 1034 and 1036 have been formstoned.

Environmental context:

Numbers 1034 and 1036 are vacant. The group is adjacent to the former site of the iron works and saw mill. A junkyard remains opposite on the former site of the old marble works, where a hoist and other remnants of the works can still be seen. Surrounded by cleared or open land, these houses are so isolated and disconnected that their fate depends entirely on a redesign for this block.
